Passionate software engineer with a proven track record for delivering innovative software solutions to improve efficiency and enhance user experience. Looking to leverage my expertise in software to contribute to a dynamic and challenging organization.

Professional Experience

Software Engineer II | Medpace | August 2022 – Present

- Collaborated with an architecture team to develop shared software projects for all company engineers to use.
- Led a team of five to design and create a web application for managing setup of medical clinical trials.
- Led large scale feature development and architecture projects on three different applications.
- Implemented reusable pipelines for deploying and managing application infrastructure to improve efficiency.
- Worked in an AGILE framework leading various sprint and non sprint meetings.
- Coordinated and led efforts to communicate with other teams and applications.

Software Research and Development - Co-Op | Siemens Software | August 2020 – December 2020

- Researched and learned completely new topics in emerging fields such as artificial intelligence.
- Learned and implemented a basic proof of concept using TensorFlow and Python.
- Researched text generation AI, using a closed source beta API to train and create a text generation application.

Software Developer/QA - Co-Op | International TechneGroup | January 2020 – May 2020

- Worked on two proprietary softwares both in a QA and developer role.
- Contributed and maintained automated testing framework for one software on a two-person team.

Education

Bachelor of Science, Major in Computer Engineering, Minor in Computer Science | August 2017 - May 2022 | University of Cincinnati, Cincinnati, Ohio

Skills

★★★★★ Javascript/Typescript	★★★★☆ Source Control	★★★☆☆ SQL
★★★★★ React/React Native	★★★★☆ C#	★★★☆☆ Bicep/Azure
★★★★★ HTML/CSS	★★★☆☆ Angular	★★★☆☆ Python
★★★★☆ Express/Node	★★★☆☆ MongoDB	★★☆☆☆ C++

Projects
